OVERVIEW

Coin is a remote controlled tuneable range of round LED ceiling lights. As good things come in threes the Coin collection is no exception to this rule with three size options available. The largest of these sizes boasts an impressive 100W output with 6000 lumens, ideal for larger room settings. Each diameter can be chosen in one of four colour finishes; white, black, sand brown and wood effect. Mantra's reputable high quality LED technology provides reassurance that a longevity of use can be sustained.
