- **Lamp(s) not included**
- **Adjustable in height**

Glass lighting – a timeless trend. Glass isn't just a visual highlight – it also offers a variety of possible combinations and creates a pleasant atmosphere. The modern combination with metal makes the light a real eye-catcher. The ALDO pendant light is the ideal choice for illuminating living spaces and guarantees the right lighting mood. With its aged brass colour scheme and an amber glass shade, the pendant light blends perfectly into existing colour concepts. The use of an LED light source is recommended for energy-saving lighting. These are an excellent alternative to conventional halogen lamps and represent a high quality of light together with energy savings of up to 80%. With LED lighting, you also benefit from a long service life and low heat generation, while at the same time protecting the environment.
